- 19.5" TIRES
- DRIVER AND PASSENGER AIRBAGS
- DAYTIME RUNNING LIGHTS
- AM/FM CD PLAYER

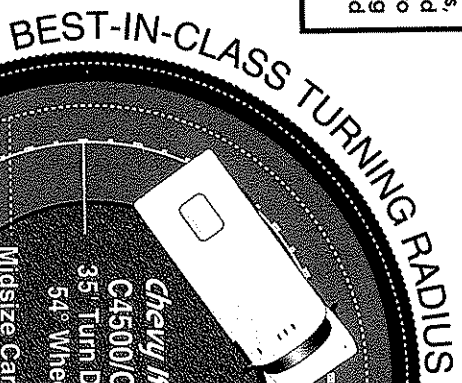

### STABIL-RIDE Suspension System

The best just got better. The optional Stabil-Ride™ suspension system integrates parabolic leaf springs, auxiliary springs, a stabilizer bar and tuned shocks, designed to provide a low maintenance, stable ride comparable to the ride of a diesel pusher. Enjoy unsurpassed handling with reduced body sway particularly while cornering and superior straight-line stability.

### SUPERIOR VISIBILITY

Negotiating a tricky curve in the campground or on a major city street, there will be no reason to worry while you're in the Chevrolet Kodiak. With a 54 degree turning radius, giant mirrors, large windshield and sloped hood this vehicle drives more like a light duty truck. Sloped hood allows the driver to see just a mere 13 feet in front of them, doubling their field of vision versus the traditional 26 feet.

# Yellowstone Exclusive Features & Benefits

**SOLID HARDWOOD CABINETS**

**PREDRILLED HARDWOOD CONSTRUCTION**

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

**COMPETITOR'S CABINETS**

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

**GAI VANNIZED STEEL STORAGE COMPARTMENTS**

Seamless, carpeted, galvanized steel storage compartments safely cradle your valuables. Rust protective paint and foam sealed for extended life and a quiet ride.

**Comfort Plus Furniture**

Unlike traditional plywood and foam seating Comfort Plus Seating features the strength of steel and the comfort of a sprung dinette cushion.

**SUPER STRENGTH TRUSS SYSTEM**

The super strength truss system is unmatched in the class C industry. The structural subfloor foundation begins by welding a network of integrated steel trusses to the chassis rail. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis rail these trusses are individually tested to withstand 6,000 pounds each.

When the chassis is stretched, Gulf Stream stands alone in the industry by using a full (6" on LE) or (8" on Super C) C channel extension versus the traditional 4" or less. This practice adds to the strength of the foundation and offers peace of mind that towing is safe on an extension that is true to the chassis.

**FLUSH FLO & Side out**

Gulf Stream Class C's offer flush floor slides for a residential look and feel with 6 foot ceilings in the slideroom.

**6" & 8" C CHANNEL EXTENSION**

**OR**  
ROOMS

The Gulf Stream Class C's have nearly 7' interior ceilings for a residential look and feel with 6 foot ceilings in the slideroom.

# *Cradle of Strength*

1. Seamless Rubber Roof For Greater Energy Efficiency and Dependability.
2. Luan Decking for Additional Strength.
3. Molded, High Density EPS (Expanded Polystyrene) Roof Brick Insulation - Provided Consistent Insulation Value as well as Superior Dimensional Rigidity.
4. One-Piece Formed Aluminum Air Conditioning Duct, Completely Surrounded By EPS Insulation.
5. Bubble-Wrapped Foil Insulation Provides Superior Insulation and Helps Prevent Condensation.
6. Rugged Welded Tubular Aluminum Roof Framing.
7. Rugged Heavy-Gauge Tubular Aluminum, Fixture Welded to Form the Sidewall Framing.
8. High-Density EPS Insulation Provides Superior Lamination and Bonding Characteristics and Insures Greater Energy Efficiency.
9. Interior Wall Panels Securely Laminated to Sidewall Framing.
10. "Super Slick" Fiberglass Exterior Vacuum-bond Laminated to Sidewall Framing for Lasting Beauty and Durability. (Option)
11. High-Quality Stain-Resistant Carpeting Available in Designer Coordinated Colors.
12. Extra-Thick Padding Under Carpet Provides Extra Comfort and Increases Carpet Durability.
13. Floor Decking Laminated to Steel Floor Structure Assures a Quiet, Long-Lasting Rigid Floor and comes with a 10-Year Warranty.
14. Heavy-Gauge Tubular Steel Framing, Fixture Welded for Extra Strength and Stability.
15. Heavy-gauge Tubular Steel Framed, Fixture Welded Floor Truss System Provides the Strongest Class C Foundation in the Industry.
16. Seamless Layer of Galvanized Steel Securely Laminated to the Steel Floor Framing.
17. Galvanized Steel Used to Form Each Storage & Holding Compartment.
18. Durable All-Weather Carpeting Completes Each Accessible Storage Compartment, Providing Extra Protection for Luggage and Valuables.
19. Rust-Prohibitive Paint Coating Applied to All Steel Framing Assures Corrosion and Rust Protection.
20. The Industry's Strongest, Most Spacious Exterior Storage Compartments.
