SUPERNOVA Liveability

A Luxury Diesel Floor Plan in a Super C Configuration

The Grandest of Super C Floor Plans

The "Grand Hotel," considered the best floor plan ever developed, is a culmination of every great feature ever implemented. All areas have been specifically designed to maximize space and comfort for you and your traveling companions making fun-filled family RV trips even better.

Complete residential design is apparent from the large hide-a-bed sofa that is as comfortable as the one in your home, to 7' interior ceilings, functional storage inside and out so everything has a place, to solid hardwood maple cabinetry throughout, and a horseshoe dinette that comfortably seats a family of five.

This is a rare and special Super C, an architectural beauty, holding true to a price range that fits your budget.

Liveability

The cook will have easy access to a convection oven and microwave with adequate preparation space for any meal. A recessed 3-range burner can be used for countertop space after the meal is prepared. The ergonomically designed kitchen is highlighted with a Corian counter top and covers for both the sink and range.

Our goal is to make you feel at home while on the road. **One of the most important features of the SuperNova Super C is the 7-foot interior ceiling height.**

Not only do you get a residential feel with this great feature, you also receive **larger overhead cabinets.**

SUPERNOVA

Compared to...

SUPERNOVA Liveability

A Moving Room with Room to Move

As you move toward the bedroom, you will notice the SuperNova Grand Hotel floor plan has the largest slide room in the industry for Super C's, allowing all the comforts of home.

Next to the magnificent U-shape dinette is a residential style soft touch hide-a-bed sofa placed perfectly in front of a LCD TV for excellent viewing. Enjoy the evening news or entertain with plenty of space and the right angle.

Spacious overhead cabinets made from **Amish crafted solid hardwood** feature raised panel doors. The Grand Hotel design includes a wonderfully designed bunk that will keep the kids cozy as well as a second bathroom to accomodate all your guests.

Liveability

Grand Scale Dining & Entertaining

The dining arrangement is one of the most important areas of any RV. The engineers of the Grand Hotel have created the very best U-shape dinette. The benefits of this design will be enjoyed on a nightly basis with friends and family.

Five people can sit comfortably and have dinner

In addition, a large picture window allows natural light to shine through and is a vantage point to enjoy the scenery outside – with or without a camera.

After dinner is over with and the card games have ended, a huge feature of this one-of-a-kind dinette is the size of the sleeping area.

The sleeping surface is 82" x 49" compared to a traditional dinette that functions as a sleeper.

SUPERNOVA Liveability

Fit for a King,
Designed for the Queen

All SuperNova floor plans give you the largest bed available – a king size 75" x 80"

The comfort continues with

FlexSpace

an electric bed feature giving you the option to sit up in bed while reading or watching TV.

Coordinating fabrics lend a sought-after designer look.

A Place for Everything

A full wardrobe in the bedroom gives you enough space for any trip length. Whether you're a full-timer or a weekender, you have the clothes space to always look your (relaxed) best.

Liveability

The spacious radius shower, in the master bath, with custom designed glass door and 25% larger opening gives you plenty of room to move around unlike any other Class C.

The half bath opens up to the living space so guests have easy access without walking through the master bedroom.

Plenty of Space to Freshen Up

With up to 10 people sleeping in the Grand Hotel, the importance of bathroom space is high. Imagine a bath in half arrangement with a stackable washer and dryer to keep everyone comfortable.

SUPERNOVA Liveability

FlexSpace

Blue Sky by Day, Stars by Night

The SuperNova cabover offers the tallest and widest sleeping area with an optional skyview cap. These unique elements give you excellent natural lighting and unmatched room for kids or adults to sleep. **What grand days and grand nights are made of!**

Standard on this unit is a cozy bunkhouse ideal for little RVer's with an optional individual game system for each bunk. Privacy curtains and individual windows for ventilation promise a sound night's sleep.

As you can see, the SuperNova Grand Hotel is the most liveable floor plan ever developed where elegant style meets barefoot comfort. Come in make yourself at home.

Power & Prestige

Driving the SuperNova Creates a Sense of Pride

The best looking motorhome in the market today is ready for travel whenever the whim strikes you. Built exclusively on the International chassis, the SuperNova curb appeal has become the standard for all RV's. This "shining star" has created a buzz at all the shows with onlookers being mesmerized by her beauty.

The curves and design of the International chassis are amazing.

The all new 4400 Durastar features

- Up to 18,000 pounds of towing power
- Air ride suspension and driver's seat
- Air Brakes • Allison Transmission & MaxxforceDT 300hp Engine w/ 660 ft. lbs. of Torque

The large exterior chrome mirrors accent the SuperNova to give you excellent peripheral viewing for safety. In fact, the size of the mirrors' reflective surface is one of the major reasons this chassis was made for travelers.

The SuperNova sees the road like no other

Compared to a typical Class C mirror - The SuperNova offers the most expansive view of the road

Featuring large 22.5" tires to keep you firmly on the road no matter the conditions

SUPERNOVA Power & Prestige

You'll Get There with Less Stops

You'll be ready to roll knowing you can drive longer with less stops. The SuperNova features the largest fuel tank in its class topping out at 140 gallons of fuel, and when you consider getting * 7 to 9 mpg – it's a most impressive range.

Get an incredible 420 Miles More Between Fill Ups!

The SuperNova carries 140 gallons of fuel vs. 80 gallons on most standard Class C's

140 Gallon SuperNova Fuel Tank @ 7 to 9 mpg
Averages 980 – 1,260 miles per tank

80 Gallon Standard Fuel Tank @ 7 to 9 mpg
560 to 720 miles per tank

Works with the Wind - not Against it

Another remarkable improvement from other motorhomes is the driving stability that the SuperNova achieves. The side to side sway has been reduced and the aerodynamic design of the cab and fiberglass cap allow the SuperNova to cut through the wind.

Shown in standard paint

Power & Prestige

International, the Largest Producer of School Buses, Understands Safety and Service

Easy access to engine service points is a convenient feature of the SuperNova. In fact, the hood can be lifted with just 26 pounds of pressure compared to the 73 pounds of pressure for a Kodiak chassis. Secondly, a technician has easy access to the engine from the outside, thereby avoiding any dirt getting into your unit when it's time to change the fluids.

It's a Beauty, for Sure

Surrounding campers will admire the full body paint and slick exterior fiberglass along with the luxury bus-style storage doors.

Gulf Stream Coach and International enjoy an exclusive relationship having determined the best chassis and drive train combination available for this extraordinary Super C. A cross functional product development effort heaped in market research has determined the specifications that lead to such benefits as safety, performance, power, and towing capacity.

The SuperNova is built on the legendary DuraStar chassis with 25,900 GVWR and 22.5" tires.

The strength of the foundation will keep you and your family safe on the road and at rest.

Thank you for taking the time to review the the best floor plan ever developed in a class C - the **SuperNova**.

For more than twenty-six years **Gulf Stream** has helped families enjoy the RV lifestyle while keeping everyone safe. Beginning with our cradle of strength construction and continuing with our national service network, including 24 hour roadside assistance, Gulf Stream is by your side.
