EEDV01

CD/MP3/MP4/DVD Disc Player

Compatible with standard size CD, MP3, MP4 and DVD discs (4.75" or 12cm). The EEDV01 is designed to read standard DVD, MP3, MP4, CD, CD-R, CD-RW, JPEG-CD Disc. Because of variations in recording methods some discs may not play on this unit. This unit will play region 1 DVD's (USA and Canada).

USB / SD Card

This unit allows users to play files stored on both USB and SD cards including MP3 music, MP4 short video clips and JPEG photo files.The USB port will also charge many devices like iPods and MP3 players.

Built-In AM/FM Tuner

27 preset FM stations and 18 AM stations available to select.

Bluetooth® Link

This unit contains Bluetooth® technology enabling secure, wireless connections between portable and fixed devices. This unit, when enabled can place and receive cellular phone calls through the EEDV01 remote keypad and built in microphone.

The EEDV01 Bluetooth® link also enables handheld control of streaming music from users wireless device play list.

This unit supplies quality high power audio and video outputs to three different rooms. Room A receives 2.1 digital surround sound. Room B and C receive standard stereo audio.

Sound Equalization Control

Allows control of the Bass, Treble, Balance and four preset EQ settings.

This unit has 1 Video Input, 3 Video outputs, 4 Audio inputs, 1 Digital Optical input and 1 Coaxial Input to allow users to enjoy entertainment from other sources such as Satellite Radio, Cable and Satellite TV, VCR's, Digital Cameras, Video Game players and a convenient 3.5mm Audio Input on the front panel for iPods and MP3 Players. These sources must be connected through the inputs on the unit or through additional accessory wall plates. The Digital Optical input is used to enable digital audio from A/V components with digital optical output.

Clock

This unit has a built in clock that can display the time when any button is pressed and a sleep timer that turns off the radio for you.

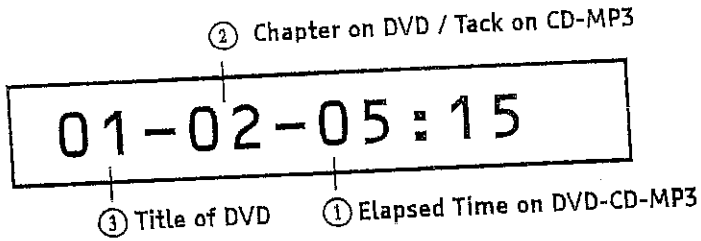
SEE Accessoiries Page 30.



Load a Disc

There are several ways to select and load a disc in the EEDV01 If you have left a disc in the unit you can just press PLAY. If you are using the remote, press the PLAY button. Either of these options will start the disc playing. Another way to play a disc is to insert it into the slot. The unit will switch to LOAD by it self.

Insert Disc into built-in Player loader, label side facing up

LOAD

LOAD will automatically appear in the display

Eject a Disc

Regardless of which function is playing, if the eject button on the front panel or the remote control is pushed, the unit will stop playing and eject the disc. The unit will keep the disc in the slot with EJECT showing on the Digital Display. If there is no disc inside the unit, a disc placed in the slot will be taken inside automatically with LOADING showing on the Digital Display. *NOTE: When the unit ejects and the disc isn't removed after 1 minute, the unit will automatically reload the disc. This feature protects the disc from being dropped and damaged.*

Press EJECT

DVD/CD/MP3/MP4 OPERATION

PLAY / PAUSE

Normally, when the unit accepts a disc with no Playback Control, the unit will play the disc from the beginning. When a Playback Control exists, the user needs to push the PLAY button to start to play the disc. If the user pushes this button again, the unit will pause the disc. To release Pause, push this button again, and play will continue.

Push to pause disc.

When disc is paused, push to play disc.

Stop

When the unit is playing, push the STOP button to stop playing the disc.

Push the STOP button to stop playing the disc.

Fast Reverse / Fast Forward

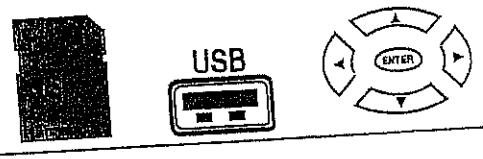
Regardless whether you use fast forward or fast reverse, (during DVD mode) there are 6 different speeds to select from: 1X, 2X, 4X, 8X, 16X, 20X To select a normal speed, push the PLAY button. The unit will immediately play the disc at a normal speed. On the unit the PLAY button must be pressed second time to Play from Pause.

Push the Fast Rewind button to rewind DVD

Push the Fast Forward button to advance the DVD

Previous / Next

Pushing the Previous button, the unit will play the disc from the beginning of the previous track. Pushing the Next button, the unit will play the disc from the beginning of the next track.



To Load USB and SD Media

Insert USB device or SD card into proper socket on the front of the radio to begin playing media. To view, navigate and select between music and video/photo media the TV or Monitor must be on and set to AV mode. Use remote NAVIGATION buttons to navigate on screen menu.

Because of variations in 3rd party recording methods some discs, USB devices or SD cards may not play on this unit. Also, the SD and USB ports are capable of playing short video clips. Long playing video files may experience buffering delays and video freeze if viewing is attempted through these ports. Bluetooth® is not video enabled and will not play video files.
