Multi-Function Sound Bar for included Home Theater System

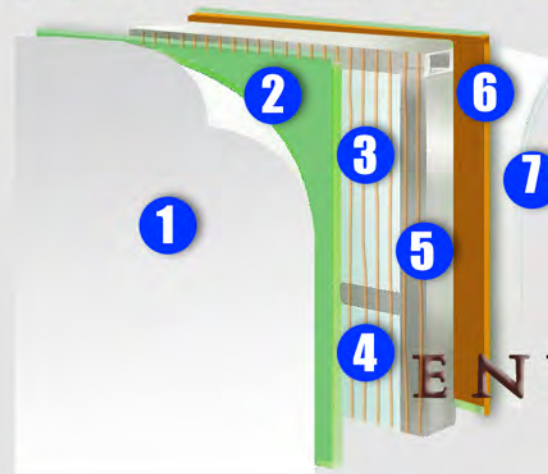

Outdoor Snack Station with Beverage Refrigerator, Sink, and Counter

Universal Docking Station for water, power, and video in Pass-Through

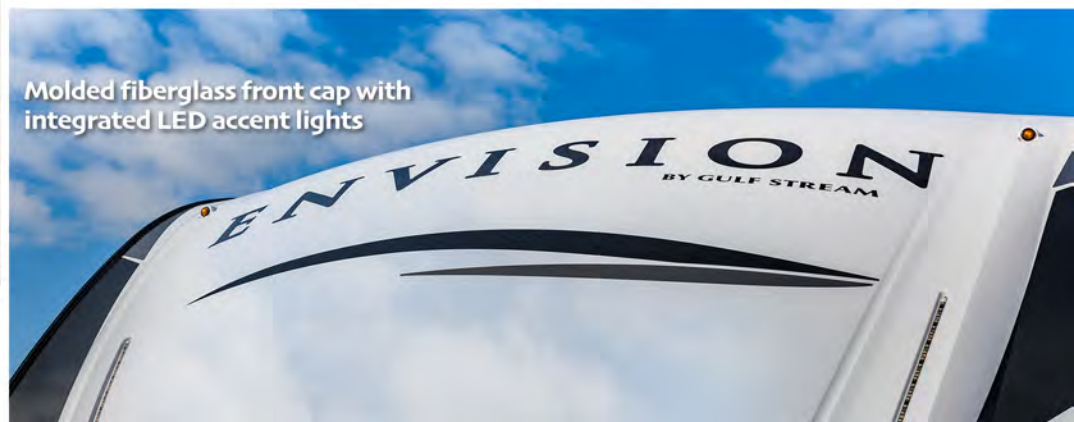

CONSTRUCTION

Laminated vacuum-bonded walls, a welded aluminum frame, and weight-saving high-performance Azdel synthetic substrate, assembled with the craftsmanship and reliability that sets Gulf Stream Coach apart.

The ENVISION Advantage

1. Exterior Fiberglass skin with molded-in color and a smooth, resilient surface for durability, great looks, and easy care.
2. Azdel Synthetic Substrate, a structural and environmental barrier between the interior and exterior environment. Azdel weighs half as much as the wood it replaces, can't absorb water, won't rot or mildew, and provides better noise and temperature insulation than wood.
3. Closed-Cell Rigid Polyfoam for high-performance insulation and structural support.
4. Robotically applied advanced heat-activated adhesives added to all internal layers, then bonded and cured in our temperature-controlled vacuum lamination chamber.
5. Welded square-tube aluminum skeleton frame for lightweight, resilient structure.
6. Structural hardwood interior wall.
7. Designer-approved easy-care vinyl wall covering.

Molded fiberglass front cap with integrated LED accent lights
